OTTAWA, February 1915.

HON. J. D. HAZEN,

Minister of Marine and Fisheries.

SIR,

I have the honour to submit the Supplement to the Forty-Seventh Annual Report of the Department of Marine and Fisheries (Marine Branch) for the fiscal year 1913-14, being the Report of the Chairman of the Board of Steamboat Inspectors.

I have the honour to be, Sir,

Your obedient servant,

A. JOHNSTON,

Deputy Minister of Marine and Fisheries.

BOARD OF STEAMBOAT INSPECTION

CHAIRMAN'S REPORT

OTTAWA, October 7, 1914.

To the Deputy Minister of Marine and Fisheries,
Ottawa.

SIR,—I have the honour to submit, as follows, the annual report of the Steamboat Inspection Service, for the fiscal year ending March 31, 1914.

STAFF.

In view of the increased work at Halifax, and that an officer might be available for the inspection of ships' tackle, Mr. Dennis J. Murray was appointed inspector of boilers and machinery at Halifax, with instructions that his duties should cover the inspection of ships' tackle. Mr. Murray was appointed to this position on November 1, 1913.

In connection with the International Conference on Safety of Life at Sea, Mr. McDonnell, Assistant Chairman, left Ottawa for London on the 28th October, 1913, to act in the capacity of expert consultant to the delegate from Canada. Mr. McDonnell returned to Ottawa on January 20, 1914.

During the year, consideration was given to the amendment of the life-saving appliances rules, and a draft set of rules was prepared and issued to shipowners and others interested, with a view to having their criticisms thereon.

Considerable work was also done by the staff in connection with the revision of Parts VII and IX of the Canada Shipping Act.

BOARD MEETINGS.

During the year various board meetings have been held to discuss questions which have arisen, principally in connection with interpretation of the rules governing the inspection of boilers and machinery.

CASUALTIES.

The following are the casualties reported from the several divisions during the year ending March 31, 1914.

Nova Scotia Division.—On November 1, 1913, the ss. *Bridgeport* left Sydney, N.S., for Montreal, with a cargo of coal, and never reported.

On January 13, 1914, the ss. *Cobequid* stranded on Trinity ledge, bay of Fundy, and became a total loss. No lives lost.

On March 17, 1914, the ss. *City of Sydney* struck off Shag rock, N.S., and became a total loss. No lives lost.

New Brunswick Division.—On December 7, 1913, the ss. *Imperator* was destroyed by fire, while at her dock at Bathurst, N.B.

5 GEORGE V., A. 1915

Quebec Division.—On July 28, 1913, the ss. *Lady of Gaspe*, of Quebec, while on her trip from Montreal to Gaspé, collided the steamer *Crown of Cordova* sustaining considerable damage to her hull. She was immediately beached to prevent sinking and hauled off the next day and towed to Quebec for repairs. No fatalities.

Sorel Division.—On January 21, 1914, the ferry steamer *Glacial*, of Montreal, while lying at her wharf at Three Rivers, was crushed by the ice and sank in about 40 feet of water. No fatalities.

Montreal Division.—On June 7, 1913, the ss. *Agnes*, of Montreal, 29 tons gross tonnage, while lying at the wharf at Buckingham, Que., was totally destroyed by fire. Cause of fire unknown.

On March 24, 1914, the ss. *City of Montreal*, of Toronto, 1,554 tons gross tonnage, while lying in winter quarters in the canal at Montreal, caught fire and was partially burnt. The hull and machinery have since been repaired, and the steamer is now running as a freight boat. Cause of fire unknown.

Kingston Division.—On October 7, 1913, the ss. *John Duncan*, while proceeding down lake Ontario—coal laden—broke her outside stern bearing, allowing the tail shaft to drop, thereby shaking the stern tube loose and breaking the gland on the stern pipe, and had to be beached at South Bay point, on the morning of October 8. On examination in dry dock, found three blades broken off the propeller.

Toronto Division.—On June 29, 1913, the tug *W. H. Price*, of Collingwood, was totally destroyed by fire at Parry Sound.

On August 8, 1913, the passenger steamer *John Lee, Sr.*, of Wallaceburg, was partially destroyed by fire at Port McNicol.

On August 30, 1913, the tug *Gale* (formerly *Active*, of Amherstburg), was totally destroyed by fire at Pelee island.

During a storm which prevailed on lakes Huron and Superior, November 9 and 10, 1913, the ss. *James Carruthers*, of Toronto, foundered on lake Huron, the ss. *Regina* and *Wexford*, registered in Great Britain, also foundered on lake Huron in the same storm, the entire crews of the three steamers (numbering about 50 persons) were drowned.

At the same time the ss. *Acadian*, of Glasgow, G.B., was driven ashore near North point, Saginaw bay, and the *Turret Chief* went ashore on Keweenaw point, lake Superior. The *Acadian* was released, and repaired at Detroit, Mich., the *Turret Chief* was abandoned by the owners to the underwriters and is still in the same position.

Collingwood Division.—On May 2, 1913, the ss. *John Torrent*, of Sault Ste. Marie, was burnt at Richards Landing, St. Mary river. Cause of fire unknown. No casualties.

On August 21, 1913, the ss. *Clara Hickler*, of Sault Ste. Marie, foundered off Point Iroquois, Whitefish bay, and is not yet regarded as a total loss. No casualties.

On September 5, 1913, the ss. *Victoria K*, of Goderich, was in collision with the steamer *Germanic* of Collingwood, off the harbour of Blind River, which resulted in the drowning of one man and the sinking of the ss. *Victoria K*, which steamer has since been raised and repaired.

On October 7, 1913, the ss. *Aggie B. Reid*, of Sault Ste. Marie, was burnt, and sank between Thessalon and Cockburn island, North channel. Fire was caused by the upsetting of a can of kerosene oil.

On November 8, 1913, the ss. *Leafield*, of Newcastle, G.B., is believed to have foundered off Keweenaw point, lake Superior, which resulted in the loss of all hands, supposed to be twenty in number.

SESSIONAL PAPER No. 23

Port Arthur Division.—On January 1, 1911, the tug *Sandwich*, while lying at the Subway dock at Fort William, had the upper works gutted by fire. Neither the hull nor the machinery was damaged; cause of fire unknown.

Vancouver Division.—On May 9, 1913, about 2 a.m., the freight steamer *Ophir*, owned by the Lincoln Steamship Company, Limited, while at the Brunswick cannery, Canoe Pass, B.C., took fire in the quarters occupied by the crew, six of whom were suffocated while asleep. The hull was totally destroyed, boiler and machinery afterwards salvaged. Cause of fire unknown.

On July 13, 1913, the gasoline passenger vessel *Christella* owned by the Inland Transportation Company, Limited, of Vancouver, B.C., caught fire while anchored off Deadman's island, Vancouver, in charge of a watchman, and was burned to the water's edge becoming a total loss. Cause of fire unknown. No lives were lost.

On February 26, 1914, the tug *M. T. Co No. 2*, owned by the Metropole Transportation Company, Limited, of Vancouver, B.C., while at Port Moody, caught fire in the engine room. The fire getting beyond control, the vessel had to be towed out to deep water where she burned to the water's edge and sank, becoming a total loss. No lives were lost.

On February 3, 1914, the steamer *Vadso*, owned by the Boscowitz Steamship Company, Limited, of Victoria, B. C., when off the Milor peninsula, struck an uncharted rock and foundered in deep water about twenty minutes after striking. No lives were lost.

Victoria Division.—On April 13, 1913, the ss. *Princess Sophia*, while on a voyage from Skagway to Victoria, stranded on Sentinel reef, situated at the southern end of Lynn canal, Alaska, and sustained considerable damage to stem and bow plating, etc., filling forepeak and forward ballast tanks with water. At high water, the same day, the vessel floated and proceeded to Victoria. Extensive repairs were effected on the British Columbia Marine Railway's slip, on the completion of which the vessel returned to Victoria.

On May 2, 1913, the ss. *Prince Albert*, entering Port Simpson, grounded on Alexander reef at 3.20 a.m., receiving considerable damage to hull plating, forward to amidships, lifting floors in bottom ballast tank. After discharging 30 tons of cargo, the vessel refloated at 3.40 a.m. the following day and proceeded to Victoria. Repairs were carried out by the British Columbia Marine Railway Company at Esquimalt.

On June 21, 1913, the ss. *Protective*, whilst entering Brentwood bay, Saanich inlet, going slow, grounded on rock and pivoted on keel 15 feet from stern post. With the falling tide the vessel listed and gradually went over on port side to an angle of 80° and remained in that position until 7 p.m. the following day, when with the assistance of the salvage steamer *Salvor*, she was floated and towed to Victoria and placed on the Victoria Machinery Depot's slip for repairs, having sustained much damage to hull planking.

On August 30, 1913, the ss. *Trader*, while on a voyage from Victoria to New Westminster, broke the L. P. cross-head and cylinder cover. The vessel returned to Victoria, where repairs were effected, after which she proceeded on her voyage.

On October 25, 1913, at 4.30 a.m., the Canadian Government tug *Point Hope* collided in Victoria harbour off Shoal point with the United States steamer *Dispatch*. As a result, the hull of the *Point Hope* was seriously damaged above the water line, and damage of a minor extent to steam connections in the engine room was sustained. The vessel was hauled out on Turpel's ways and repaired.

On November 4, 1913, the ss. *Skookum*, proceeding from Westbank to Penticton, and towing a scow loaded with cement, collided with car barges which were being pushed ahead of the Canadian Pacific Railway tug *Castlegar*, completely wrecking the superstructure of the *Skookum*, and causing loss of equipment and damage to hull.

5 GEORGE V., A. 1915

above water line. Two of the crew suffered slight injuries. The vessel was hauled out for repairs at Nanaimo, the upper works being entirely renewed, and extensive repairs effected to hull.

On December 2, 1913, the ss. *Prince Albert*, when leaving the port of Jedway, grounded on hard bottom, sustaining damage to stern post. Repairs were carried out on the "ways" of the British Columbia Marine Railway Co. at Esquimalt, B.C.

On December 20, 1913, the ss. *Prince George* stranded at the entrance to Vancouver narrows during a dense fog, sustaining considerable damage to bottom at No. 1 hold. The vessel, after being aground for 3½ hours, floated and proceeded to Victoria. Permanent repairs were effected by the British Marine Railway Company on the Government dry dock, Esquimalt.

On January 25, 1914, at 10.28 a.m., the ss. *Princess Sophia*, on a voyage from Skagway, Alaska, to Victoria, with freight and passengers, stranded on a point in John Strait, 1½ miles east of Port Neville, sustaining considerable damage to bottom and forefoot. At 2 a.m. the following day the vessel was floated and taken to Port Harvey for temporary repairs, on completion of which she steamed to Victoria. Permanent repairs were carried out on the ways of the Victoria Machinery Depot.

On March 2, 1914, ss. *Prince John*, whilst making a landing at Swanson bay, collided with the Canadian Government steamer *Newington*, which was lying at the wharf, doing damage to several plates on the starboard quarter of the *Newington*. The latter proceeded to Victoria and was repaired at the Government dockyard, Esquimalt.

On March 21, 1914, the ss. *British Empire*, while entering North passage, Finlayson channel, collided with a rock on the east side of Boat bluff, on the south end of Sarah island, on account of which she sustained considerable damage to the bow under water line. The vessel afterwards proceeded to Vancouver, where permanent repairs were carried out.

I would respectfully call your attention to the appendix to this report, in which will be found tables as follows, for the fiscal year ended March 31, 1914:—

(1) Steamships inspected, with their gross tonnage, and with the number of passengers they were certified for, the date of expiry of certificate, and trade and route for which they were certified.

(2) Steamships not inspected, with their gross tonnage, the trade in which they would be employed, and reason for not being inspected.

(3) Steamships added to the Dominion, with particulars as to their tonnage, power, etc.

(4) Steamships lost, broken up or otherwise taken out of commission, with gross tonnage, reason of removal from commission, etc.

(5) Certificates of competency granted to engineers, with the grade of certificate issued, etc.

I have the honour to be, sir,

Your obedient servant,

T. R. FERGUSON,

Chairman.
